

Assignment - 12

Target URL for your POM:

<https://opensource-demo.orangehrmlive.com/web/index.php/auth/login>

Created a features folder and structured all feature files

login.feature

```
Feature: User Authentication

Background:
    Given the user navigates to the login page
    "https://opensource-demo.orangehrmlive.com/"

@Smoke
Scenario: Successful login with valid credentials
    When the user enters username "Admin" and password "admin123"
    And clicks the login button
    Then the user should be redirected to the Dashboard

Scenario: Unsuccessful login with invalid password
    When the user enters username "Admin" and password "wrong123"
    And clicks the login button
    Then an error message "Invalid credentials" should be displayed
```

pim_management.feature

```
Feature: Employee Management

Scenario Outline: Add multiple new employees
    Given the user is logged into the PIM module
    When the user clicks on the "Add Employee" button
    And enters "<FirstName>" and "<LastName>"
    And clicks the save button
    Then the new employee "<FirstName> <LastName>" should be successfully
    created

    Examples:

    | FirstName | LastName |
    | John      | Doe      |
    | Jane      | Smith    |
    | Alice     | Cooper   |
```

admin_search.feature

Feature: Admin User Search

Scenario: Filter users based on specific criteria

Given the user is on the Admin User Management page

When the user filters for users with the following details:

Username	User Role	Status
Admin	Admin	Enabled

And clicks the search button

Then the search results should display the record for "Admin"

leave_application.feature

Feature: Leave Application Workflow

Scenario: Apply for Medical Leave and verify status

Given the user is on the "Apply Leave" page

When the user selects "Medical Leave" from the Leave Type dropdown

And selects a valid date range

And clicks the "Apply" button

Then a success toast message should appear

And the "Leave Balance" for Medical Leave should be reduced

And the status of the request should be "Pending Approval"

profile_update.feature

@Regression @Profile

Feature: Profile Update

Scenario: Update Nick Name and Profile Photograph

Given the user is on the "My Info" section

When the user changes the Nick Name to "TechWizard"

And the user uploads a profile photograph "profile_pic.jpg"

And clicks the "Save" button

Then the personal details should be updated successfully

And the new profile picture should be visible
